Fig. 17/18

Universal curettes are designed for easy adaptation on all tooth surfaces (thus the name "universal").

The blade of a universal curette has a round toe and back, and two cutting edges for scaling, making it an efficient design for scaling the entire mouth.

ED-3603

# Details

## Durabale and Strong

Made with German Tungsten Carbide. Solid, non-slip and easy to operate. The dental pliers will not bend or break.

## Flexible

The fit and finish is perfect.

## Anti-pich Design

It will not hurt your hands.

ED-3603-1

# Features

ED-3603-2

## High Quality

It's made of great stainless and hard alloy material, durable & solid.

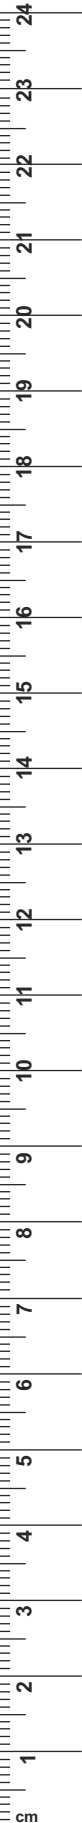

## Safe And Reliable

Professional dental tools and smooth surface which won't hurt your hands.

## Easy To Use

It's easy to operate with a comfortable grip and working tip.

# Different Applications
